Our Vehicles...

All of AMED's transport vehicles meet or exceed requirements for the Federal Motor Vehicle Safety Standards, ADA, State Department of Transportation, and the Department of Health. Each vehicle is also licensed with the Public Utility Commission (PUC).

Our transport vehicles are also equipped with radio and cellular capabilities. This allows our office to more efficiently dispatch our vehicles to you. This also connects the transport vehicle directly with our AMED ambulances, in case of an unexpected emergency. In which case, each transport van is prepared, with basic life support equipment.
